\$85 million
dust vanished
into
clear air

And water. We've spent a lot of time and money improving both. Since 1961 Stelco has spent or committed \$85 million on environmental quality control — \$75 million right here in Hamilton.

One example is the ion exchange system at Hilton Works, where solution from the tinning process is purified and the water recycled. Another is the unique water recirculation and cleaning system installed on our largest blast furnace. Electrostatic precipitators now improve both air and water quality at the Acid Regeneration Plant. More baghouses have been built to collect fumes at the Open Hearth Shop. A baghouse was also completed at 'D' blast furnace where it collects dust generated by raw material screening.

And there's more

Work continues on the final phases of the sanitary sewage system; on the extensive filtering plant that will clean 60,000,000 gallons of Rolling Mill waste water per day. On two new coal charging cars at the Coke Oven batteries, the latest technology will prevent atmospheric emissions while charging the ovens. Stelco recognizes the Company's responsibility as Canada's largest steel producer, to lead the way in preserving the ecosystem. This is why, apart from helping to make Hamilton one of Canada's most prosperous cities, we are wholeheartedly committing time, money and energy in an endeavour to protect its environment. For you. For all of us.

WORK STATISTICS

THERE WERE 3,400,000 WOMEN WORKING IN CANADA AT THE END OF 1974. THIS IS 34.4% OF THE LABOUR FORCE.

Of these, 58% were married, 32.5% were single, and over 9% were widowed, divorced or separated.

Working women have less time to watch television or read magazines and newspapers. They must spend more money on clothing. Many drive their own car.

In addition, households in which women work have 25.5% higher gross incomes with more money to spend on labour-saving devices and vacations.

THOUSANDS OF WOMEN USE CITY DIRECTORIES EVERY DAY. ARE YOU GETTING YOUR MESSAGE TO THEM? WHY NOT SET YOUR AD IN A WORKING SITUATION?
